

Expedited BUSINESS ASSISTANCE

Program

“From Site Selection to Grand Opening Day”

Benefits of the Expedited Business Assistance Program include:

- Interdepartmental meetings with staff and company's project team
- Overview of the plan check and building review process and tips to streamline the permitting process
- Foster working relationships with City staff
- Discuss project timelines and address general inquiries
- View permit approvals in real-time

“Frankly, the ease and efficiency of working with the City of Lake Forest far surpassed our expectations. Planning a 103,000 sq/ft state-of-the-art facility such as Image Options required many disciplines and services to work in a highly coordinated manner, for which we are very grateful to the City's Expedited Business Assistance Program.”

- Tim Bennett, CEO Image Options
